Title: Onondaga County Agricultural Districts

Geospatial_Data_Presentation_Form: vector digital data

Description:

Abstract:

The Onondaga County Agricultural District geographic dataset was created by the Onondaga County Department of Planning (OCDOP) to help manage the county's agricultural districts and to meet New York State Department of Agriculture and Markets mapping requirements. The shapefile contains polygon features representing each of the four districts in Onondaga County that are under the protection of NYS Agricultural District law. The dataset is an extract of the County Parcel File that has been matched against a list of parcels for each agricultural district. A single character attribute is included to identify each district (1-4). The dataset is current through July 2023, and has been updated to spatially match 2023 parcels.

Purpose:

Suitable for use in a GIS database to display and locate agricultural district boundaries for general planning purposes.

Access_Constraints:

Data is owned by the Onondaga County Department of Planning (OCDOP). Data can be obtained from OCDOP upon request.

Use_Constraints:

May not be sold or redistributed without prior consent from OCDOP. This dataset is NOT an official list of agricultural district properties in Onondaga County and is intended for general planning purposes only.

Data_Quality_Information:

Logical_Consistency_Report:

Generally topologically clean.

Completeness_Report:

The shapefile represents the agricultural districts in Onondaga County as of July 2023. This file is updated whenever properties are either added or deleted from the agricultural district, as authorized by the Onondaga County Legislature. The shapefile was generated from lists of parcels officially in an agricultural district. Any omissions from those source lists will be reflected in this dataset.

Positional_Accuracy:

Horizontal_Positional_Accuracy:

Horizontal_Positional_Accuracy_Report:

This dataset represents an extract of individual properties selected from the Onondaga County Parcel File. As a result, the positional accuracy of the agricultural district dataset should be similar to that of the parcel file (about +/- 40 feet).

Quantitative_Horizontal_Positional_Accuracy_Assessment:

Horizontal_Positional_Accuracy_Value: +/- 40 feet

Horizontal_Positional_Accuracy_Explanation: No quantitative tests

Lineage:

Process_Step:

Process_Description:

The Onondaga County Agricultural District shapefile was created by extracting properties from the Onondaga County Parcel File. These properties were identified from official lists of parcel ID numbers (section, block, and lot) obtained from Onondaga County Legislative resolutions and supplied by the Onondaga County Agricultural District Program administrator. Only those parcels included on the official lists were selected for export from the parcel file. Thus, any exclusions or errors in the source lists will be reflected in the geographic dataset.

A single character attribute representing the district number was added to all property records after export. The shapefile was then dissolved using the agricultural district number so that only four entities (districts 1-4) are represented in the dataset. Finally, the shapefile was manually edited on-screen to remove any slivers or gaps that may have resulted from slight positional inaccuracies in the parcel file.

Distribution_Liability:

Onondaga County makes no warranty as to the accuracy or completeness of the County's agricultural district file, and will not be held responsible for any omissions or inaccuracies. This data is intended for general planning purposes. For definitive confirmation as to whether a particular property is in an agricultural district, please consult Onondaga County's Agricultural District Program administrator. Distribution requires the approval of the County Agricultural District Program Administrator.
