        Citation_Information:
            Originator: Syracuse-Onondaga County Planning Agency
            Publication_Date: Unpublished Material
            Title: Municipalities in Onondga County
            Geospatial_Data_Presentation_Form: vector digital data
    Description:
        Abstract:
            The Municipalities in Onondaga County geographic dataset was created by the Syracuse-Onondaga County Planning Agency. The shapefile consists of polygon features representing city, town, village, and the Onondaga Nation boundaries. The dataset is based on the Onondaga County Street File and visible features digitized using 2006 aerial photography obtained from the New York State Digital Orthoimagery Program.
        Purpose:
            Suitable for use in a GIS database to display, locate, and query municipalities in Onondaga County.
    Supplemental_Information:
        Zone 4826 (Central New York) of the State Plane Coordinate System (NAD83).

Lineage:
Process_Step:
Process_Description:
The Onondaga County municipality shapefile was developed by extracting linear municipal boundary features from the Onondaga County Street file. The municipal lines extracted from the street file were originally developed

from a variety of sources, including the Onondaga County Parcel dataset. In instances where municipal boundaries are represented by photo-identifiable features, these boundaries were positionally matched on-screen to 2006 photography from the New York State Digital Orthoimagery Program. As a result, the accuracy of municipal lines following photo-identifiable features is considered more accurate than those that do not. After completion of the boundary extraction and alignment, the lines were converted to polygons using ArcCatalog. Attributes indicating municipality names and cartographic labels have been added.
